Terrance Johnson does not have any H&S training on record. Therefore, he must take the 24hr EPA H&S training, available online through Skillport, as this is the minimum H&S training required to deploy into the field. Since his role will be as a CI, he is not required to have HAZWOPER training. At this time, **Terrance is NOT authorized to deploy in support of the Gold King Mine spill.** He will also have to go through the prescreening process if/when his training is completed.

Damon McElroy has been cleared.

Gloria Vaughn has met all the H&S training requirements. I understand she has received her prescreening exam. I just need a copy of her exam form for our records. Once I receive the form, I can clear her to deploy.

Cynthia Fanning is overdue on her first aid/CPR training; last taken on 1/10/13. Cynthia does not meet her H&S training requirements and therefore is NOT authorized to deploy in support of the Gold King Mine spill. In addition, I need a copy of her prescreening clearance paperwork.

Tonia Biggs has been cleared.

Kenneth Shewmake is currently overdue on his occupational medical surveillance exam. His last exam was on 7/1/2013 and was due on 7/1/15. Therefore, **Kenneth is NOT authorized to deploy in support of the Gold King Mine spill.**

David Gillespie does not have any H&S training on record. Therefore, he must take the 24hr EPA H&S training, available online through Skillport, as this is the minimum H&S training required to deploy into the field. Since his role will be as a CI, he is not required to have HAZWOPER training. At this time, **David is NOT authorized to deploy in support of the Gold King Mine spill.** He will also have to go through the prescreening process if/when his training is completed.

Terrence Johnson, Damon McElroy, Gloria Vaughn, Cynthia Fanning, Tonia Biggs, Kenneth Shewmake, and David Gillespie have expressed an interest in being deployed. They may be good candidates to hold CI positions, since they lack either 8-hr refresher or do not participate in the medical monitoring program. Two personnel have been cleared by nurse and Kendra has authorized them too.

Potential Responder	8-hr H&S Refresher	Medical Monitoring	Nurse Prescreen/Cleared to Deploy
